### Typography

DISPLAY · IBM PLEX SANS THAI · 700

# AI-First

HEADING 2 · 600

## Context Engineering

BODY · 300 · LH 1.85

สร้างโซลูชันที่ใช้ได้จริง — AI ขยายความเร็ว, dev ดัดลึนใจทิศทาง

OVERLINE LABEL · MONO · 0.3EM

AI CODING TOOLS · FOUNDATION

MONO BODY · IBM PLEX MONO

@analyst · @pm · @architect · @dev

### Design Principles

- Dark-First**  
Zinc 950 base, emerald accent on dark surfaces. Never white backgrounds.
- Type-Forward**  
Bold headings carry hierarchy. Light weight body text. Mono for labels + code.
- One Accent**  
Emerald 400 only. Used for CTAs, labels, left-borders, and highlights.
- Thai-Friendly Spacing**  
Line-height 1.85 for body, 1.25 for headings. word-break: break-word.
- Slide Entrance**  
0.45s cubic-bezier(0.22,1,0.36,1) - opacity + translateY(12px) fade-up.

## BMAD V6 — NAMED AGENTS

|                                          |                                             |                                                 |                                                   |                                          |                                                   |
